DETAILED ACTION

1. Claims 1-4 are presented for examination.
2. Claims 1-4 are allowed.
3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Jones et al U.S. Patent No. 6,587,168 discloses an internal polarizer formed on the whole area of substrates including the color filters and black matrix.

4. The following is an examiner's statement of reasons for allowance: Applicant's claimed invention distinguishes over the prior art for the following reasons. The claims are allowable over the prior art of record because none of the references, either alone or in combination, discloses or renders obvious an LCD comprising **a partially masked lower polarizer** mounted outside the color filter substrate, or formed on the whole area of substrate including the color filters and black matrix, **in which a portion under/on the non-pixel sections does not have polarization function.**

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
